

TurtleFEST

Grant Application

TURTLEFEST is a fundraiser for turtle and tortoise conservation. All funds raised via TURTLEFEST will be disbursed directly to researchers, biologists, universities and legitimate conservation entities for the sole purpose of preserving, protecting and restoring turtle and tortoise populations and their natural habitats.

The TURTLEFEST grants reviewers will consider a wide variety of projects, but field studies and multi-disciplinary approaches to conservation will be given highest priority. Only in exceptional cases will travel and administrative costs be funded.

Proposals should be limited to this form (four to five pages), plus curriculum vitas (CVs), references and permits (if applicable). Font size should not be smaller than 10 point. Please limit CVs to two pages per PI. When possible, electronic submissions are preferred. No photos.

Recipients must submit a progress report within one year after the award of funds.
